INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Amiliant's an access of the second						
Applicant's or agent's file reference P03-114	FOR FURTHER A	CTION	See Form PCT/IPEA/416			
International application No.	International filing da	ate (day/month/year)	Priority date (day/month/year)			
PCT/JP2003/013743	28 October 200	03 (28.10.2003)	29 October 2002 (29.10.2002)			
International Patent Classification (IPC) or national classification and IPC A01K 67/027, A61K 45/00, A61P 13/08, G01N 33/15, 33/50						
Applicant TAIHO PHARMACEUTICAL CO., LTD.						
This report is the international prelin Authority under Article 35 and trans	 This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 					
2. This REPORT consists of a total of	4 sheets	, including this cover s	sheet.			
3. This report is also accompanied by A		_				
a. (sent to the applicant and	to the International Bu	ureau) a total of	sheets, as follows:			
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).						
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the Supplemental Box.						
b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s))						
4. This report contains indications relat	ing to the following ite	ems:				
Box No. I Basis of the re	port .					
Box No. II Priority						
Box No. III Non-establishr	nent of opinion with re	gard to novelty, inven	tive step and industrial applicability			
Box No. IV Lack of unity of	of invention					
Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement						
Box No. VI Certain docum	ents cited					
Box No. VII Certain defects	Box No. VII Certain defects in the international application					
Box No. VIII Certain observations on the international application						
Date of submission of the demand		Date of completion of this report				
02 February 2004 (02.02.2004)		20	May 2004 (20.05.2004)			
Name and mailing address of the IPEA/JP		Authorized officer				
Facsimile No.		Telephone No.				

International application No.

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY PCT/JP2003/013743

 With regard to the language, this report is based on the international application in the language in which it was filed, unless otherwise indicated under this item. 					
This report is based on translations from the original language into the following language, which is language of a translation furnished for the purpose of:					
international search (under Rules 12.3 and 23.1(b))					
publication of the international application (under Rule 12.4)					
international preliminary examination (under Rules 55.2 and/or 55.3)					
2. With regard to the elements of the international application, this report is based on (replacement sheets which have furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally and are not annexed to this report):					
The international application as originally filed/furnished					
the description:	ال د داه است.				
pages, as originally filed/fi	irnished				
pages* received by this Authority on					
the claims:					
pages , as originally filed/fi	ırnished				
pages , as amended (together with any statement) under A					
pages* received by this Authority on					
pages* received by this Authority on					
the drawings:					
pages , as originally filed/fi	urnished				
pages* received by this Authority on					
pages* received by this Authority on					
a sequence listing and/or any related table(s) – see Supplemental Box Relating to Sequence Listing.					
3 The amendments have resulted in the cancellation of:					
the description, pages					
the claims, Nos.					
the drawings, sheets/figs					
the sequence listing (specify):					
any table(s) related to sequence listing (specify):					
4. This report has been established as if (some of) the amendments annexed to this report and listed below had not be made, since they have been considered to go beyond the disclosure as filed, as indicated in the Supplemental (Rule 70.2(c)).					
the description, pages					
the claims, Nos.					
the drawings, sheets/figs					
the sequence listing (specify):					
any table(s) related to sequence listing (specify):					
* If item 4 applies, some or all of those sheets may be marked "superseded."					

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.

PCT/JP03/13743

Box No.	III Non-establishment of opinio	on with regard to novelty, inventive step and industrial applicability			
The questions whether the claimed invention appears to be novel, to involve an inventive step (to be non obvious), or to be industrially applicable have not been examined in respect of:					
	the entire international applicatio	n.			
\boxtimes	claims Nos.	24			
becau	the said international application	or the said claims Nos atter which does not require an international preliminary examination (specify):			
	the description, claims or drawing are so unclear that no meaningful	gs (indicate particular elements below) or said claims Nosopinion could be formed (specify):			
\boxtimes	the claims, or said claims Nos by the description that no meanin	gful opinion could be formed. are so inadequately supported			
\boxtimes	no international search report has	been established for said claims Nos			
	the nucleotide and/or amino acid Administrative Instructions in tha	sequence listing does not comply with the standard provided for in Annex C of the t:			
	the written form	has not been furnished			
		does not comply with the standard			
	the computer readable form	has not been furnished			
		does not comply with the standard			
	the tables related to the nucleotide the technical requirements provide	and/or amino acid sequence listing, if in computer readable form only, do not comply with d for in Annex C-bis of the Administrative Instructions.			
	see Supplemental Box for further	details.

INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.
PCT/JP03/13743

	ox No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement				
1. Statement					
Novelty (N)	Claims	1-23	YES		
	Claims		NO		
Inventive step (IS	S) Claims	1-23	YES		
	Claims		NO		
Industrial applica	bility (IA) Claims	1-23	YES		
	Claims		NO NO		

2. Citations and explanations (Rule 70.7)

Document 1: EP, 1055426, A (Taiho Pharmaceutical Co., Ltd.), 29 November, 2000 (29.11.00)

Document 2: "Basic and Clinical Examination of Prostatitis (in Japanese)," (Toshihiro Goto), Nishinihon Journal of Urology, 1988, Vol. 50, pages 446-455

Document 3: "Sex-hormone-induced Inflammation and Fibromuscular Proliferation in the Rat Lateral Prostate," (C.L. Robinette), Prostate, 1988, Vol. 12 (3), pages 271-286

Document 4: "Development of a Mouse Model for Nonbacterial Prostatitis," (D.W. Keetch, et al.), J. Urol., July 1994, Vol. 152 (1), pages 247-250

Document 5: "Rat Model of Experimentally Induced Abacterial Prostatitis," (M.D. Lang, et al.), Prostate, 1 November, 2000 (01.11.00), Vol. 45 (3), pages 201-206

The subject matters of claims 1-23 appear to be novel and to involve an inventive step in view of documents 1-5 cited in the ISR.

None of the documents describes or suggests that if hydrochloric acid is injected under the prostate membrane of a nonhuman animal, an abacterial prostatitis model animal having the tissue disorders and lower urinary tract disorders characteristically observed in human chronic abacterial prostatitis can be obtained.
